# THE DOTHAN EAGLE

**WEATHER** Generally fair tonight and Wednesday without much change in temperature.

DOTHAN'S POPULATION: 1890, 247; 1900, 2,275; 1910, 7,016; 1920, 20,000. "FOR I HEARD THEM SAY, LET US GO TO DOTHAN."

VOLUME 8

DOTHAN, ALABAMA, TUESDAY AFTERNOON, JULY 27, 1915

NUMBER [illegible]

# AUTHORITIES SEEK TO FIX BLAME FOR EASTLAND HORROR

Chicago, July 26.—Federal and State authorities today took up the task of fixing responsibility for the steamer Eastland disaster in which approximately 1,000 of 2,048 excursionists lost their lives.

Examination of the crew was continued with a view to learning if all regulations were complied with. Efforts also were made to ascertain whether the vessel was properly constructed.

State's Attorney Hoyne began the preparation of evidence for the Cook County Grand Jury on the theory that the United States inspection bureau erred in granting a license to engage in the trans-lake business. Mr. Hoyne declared that the evidence he had in hand indicated that the Eastland was an unsafe vessel. Dickerson N. Hoover, Acting Supervising Inspector of the United States Steamboat Inspection Service and Captain Charles H. Westcott, of Detroit, joined Inspectors Mansfield and Nichols in the examination of the crew to determine any negligence in operation, and whether the water ballast compartments were properly filled. They did not credit the theory that there was a sudden shift of weight.

Coroner Hoffman announced that he would not hold an inquest until the search for dead was completed. This was continued throughout the night and this morning an additional squad of 25 divers was sent to the hull.

Divers reported to Coroner Hoffman that they believed there were about 200 bodies still in the hull, many which canot be taken out until the vessel is raised. Arrangements were completed for raising the steamer and dynamiting the river bed to release bodies that may have been stuck to the mud.

At noon Coroner Hoffman reported that 810 bodies had been recovered. Coroner Hoffman believes the total will reach 1,100.

The investigations undertaken by the Federal, State and City officials are being steadily pushed in an effort to fix responsibility.

The first funeral services took place today, when more than 300 corteges passed through the streets.

Public relief work was continued today under the direction of Mayor Thompson's Advisory Committee and the local Red Cross.

Persons in every trade and industry are contributing. It was announced that $150,000 had been pledged and that the remainder of the $300,000 it is planned to raise would be available within 36 hours.

### One Woman Loses Husband and Her Four Children.

Chicago, July 26.—Otto Brandt was sent by his sister, Mrs. Mary Braitch, to find her husband and four children, from whom she became separated when the vessel capsized. He located them all among the bodies in the morgue.

Mrs. Braitch and her family were together when the Eastland turned over. She had her baby in her arms when they were thrown into the water, but the infant slipped from her grasp. Mrs. Braitch was taken home in a hysterical condition.

"She sent me down," said Brandt, "and said, 'I know that at least one of my babies must be alive.' I found the bodies here and had them brought together. I should have gone home long ago but I cannot tell her that all have gone."

## DOCTORS TO EXAMINE FRANK'S ASSAILANT

Atlanta, Ga., July 26.—When William Creen, the lifetime convict who recently attacked Leo M. Frank, was closeted last Saturday with Governor Nat E. Harris, telling him the story of his attack upon Frank and his motives for the act, he made just one request of the governor, and this request was not for clemency in any form.

It was that the governor see that an X-ray examination is made of Creen's side to find whether a rib which he had broken once is not still out of place. Governor Harris promised Creen that he would do this, and the Governor stated Monday that he will take the matter up with the prison commission.

Governor Harris talked freely Monday of the private audience which he had given Creen at the state prison and declared that, except for this private audience, there was nothing which transpired at the state prison investigation which he was not all the time willing for newspaper men to see and hear.

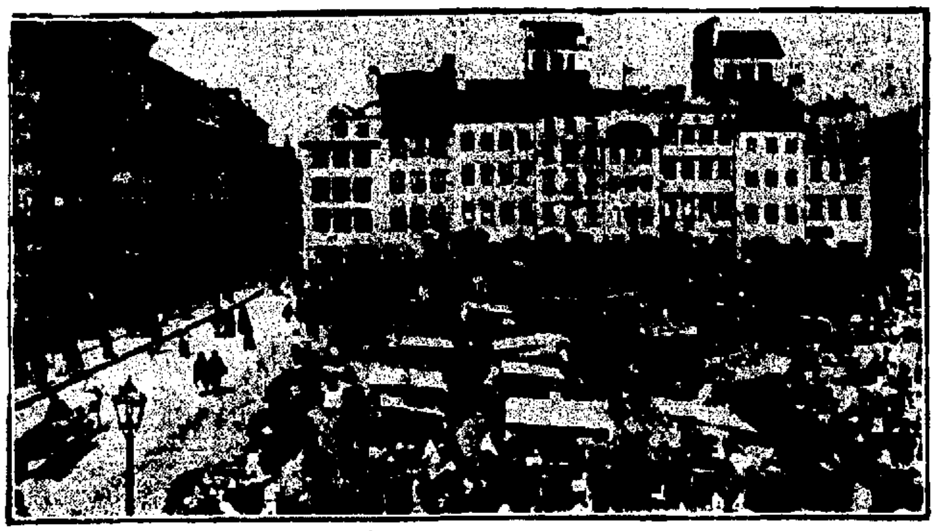
"My reasons for not allowing the press to hear Creen's statement," said the governor to a newspaper reporter, "are already well known to you. You, I believe, were present in the sleeping ward of the prison when Creen stated positively that he would tell his story to no one except the governor, and that privately. I afterwards endeavored to get Creen to tell me his story in the presence of the press and the prision commission but he steadfastly declined to do this."

Illustrating the extreme secrecy which Creen preserved in making his statement, Governor Harris said that once during Creene's statement someone accidentally opened a door leading from the warden's office into an adjoining room where Frank, whose throat Creen had cut, lay upon a cot. Creen instantly hushed talking, said the governor, and the governor had to have the door shut and locked before Creen would resume his story.

### GRANGERS HAVE REUNION

There was a reunion of Grangers at Bazemoore mill, beat 11, yesterday, something over 150 persons all related, being present. There were fathers, mothers, brothers, sisters, cousins, and then some. Among those in attendance were Sheriff and Mrs. John May of Dothan, Mrs. Betty Mullen of Society Hill, Hon. and Mrs. Will Saunders of Abbeville, Mrs. Bertha Bruner of Ashford, Mrs. Ellen McAnulty and daughter of Malone, Fla.

# Polish Capital About To Fall Into Hands Of Germans



THE MARKET PLACE AT WARSAW.

Scene in the market place of Warsaw, the capital of Poland, upon which the Germans are rapidly closing in from three sides. It is expected that Warsaw will fall at any time. A report from Berlin states that Grand Duke Nicholas, in command of the Russians defending the city, has made plans to set it to the torch rather than allow the Germans to capture it.

## DOTHAN FIRM GETS CONTRACT

The Sherman-Spann Lumber Company of Fountain, Fla., has been awarded the contract to furnish the lumber to rebuild the Central Compress, it being estimated that 750,000 feet will be required. Shipments of lumber will begin early as possible, and the work at the plant will be done without delay, if possible.

The Sherman-Spann Lumber Company is one of the largest concerns in this part of the State, the mill being located at Fountain, Fla. A large part of the business of this company is handled through the Dothan office.

### CANADA MOB RUSHES AT RECRUITING AGENT

Montreal, July 26.—A demonstration took place today when a soldier, with a recruiting poster, attempted to speak at a meeting of the Champ De Mars, which was being addressed by a man said to be a socialist, who was denouncing the sending of more men to the front. The soldier exhibited his placard, which bore the words, "Three hundred men wanted," and the crowd made a rush at him.

Help was summoned from an armory near by and the soldiers, aided by police, dispersed the mob. One arrest was made.

### WORKING WEST MAIN

West Main street is being worked by a road crew, some much needed improvements being made. A new storm sewer has been installed at Lena street, and other repairs are in course of construction.

## NEGRO WOMAN MISUED FUNDS IS CHARGED

Addie Guilford, secretary for a local fraternal organization for colored people, was arrested today on a charge of forgery and embezzlement, a warrant for her arrest having been sworn out before Justice of the Peace T. W. Butler. The negro woman was placed in the county jail.

It is said that the woman misappropriated or misused lodge monies to which she had no right.

## CREW IS GIVEN TIME TO LEAVE

London, July 26.—Within 48 hours after the German Foreign Office had received President Wilson's latest note on submarine warfare a German "U" boat torpedoed and sank the American steamer Leelanaw, off the coast of Scotland. Her crew was landed at Kirkwall, Scotland today.

The Leelanaw was torpedoed on Sunday morning while bound from Archangel, Russia, to Belfast, Ireland, with a cargo of flax. Before she went to the bottom the crew took to the boats under the direction of Captain [illegible].

The identity of the submarine that sank the Leelanaw has not yet been ascertained.

Reports from Kirkwall say that the Leelanaw was approached Sunday morning by the German submarine off the northwest coast of Scotland. The submarine ordered the ship to stop, and the commander then brought the crew aboard. The commander inquired after the Leelanaw's cargo, and being told it was flax, immediately declared it contraband, and then ordered the entire crew to the boats.

After they put off from the ship she was torpedoed and went to the bottom.

## UNIQUE GAME IN HEADLAND

Charging an admission of five cents and furnishing lemonade and palmetto fans free, the promoters of the baseball park at Headland made an unusual bid for attendance yesterday afternoon.

The occasion was one that will be long remembered by the people of Headland, who witnessed the exhibition and yelled themselves hoarse. It was a game of ball between the Fats and the Leans, many of the leading business men of Headland taking part in the game. L. T. Solomon's daring slide over a stump was alone worth the price of admission. This stunt would have made Ty Cobb look like a bush leaguer.

The scorers used up all the pencils in Headland in an effort to keep a correct account of the runs made, but from the best information obtainable it seems that the Fats came out ahead.

It is probable that a game will be played in Dothan between the Fats and Leans. It is said that Sam Eiland is planning to arrange such an exhibition.

### THE PRICE SHE PAYS

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.

State of Ohio, City of Toledo, Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. [illegible]
Seal. A. W. GLEASON, Notary Public.
Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free.
F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

# PROBE COMMITTEE MAY INVESTIGATE BANK DEPARTMENT

Montgomery, Ala., July 26.—The recess probe committee which has been continued without appropriation, will meet early this week. It is reported that affairs in the state banking department will be investigated.

**Public School Lobby.**

Organization of a great lobby for public schools among legislators themselves may be made at a meeting at 8 o'clock Tuesday night in the house, the call being prepared by Representative Davis and signed by many legislators. Its purpose is for "devising methods whereby public schools of the state may be taken care of before special, extra, additional or other appropriations are made to higher institutions of learning."

One solution of the convict lease problem proposed by Representative Tunstall may be adopted.

He would compel convict labor contractors to pay the same wages as to free labor, the state then caring for the convicts in better manner. Senator [illegible] announces intention to introduce a bill prohibiting officers or employes of state educational institutions from lobbying for greater appropriations at the state's expense.

**Tax Bill.**

Consideration of the tax bill which reforms the tax system of Alabama is expected to be taken up in the house early in Tuesday's session. This is expected to precipitate a warm fight.

In the senate, Senator Lee's educational bills including that on compulsory education, probably will be considered.

## ROAD TO WARSAW SOMEWHAT ROUGH FOR THE GERMANS

London, July 26.—Fighting for Warsaw has shifted from south Poland, where Field Marshal von Mackensen has been unable to advance to the north where the Germans have crossed the Narew river along a wide front.

Petrograd has not admitted this German success. The Ostrolenka fortress, from which radiate three useful strategic railroads, apparently still is controlled by the Russians, although the attack from Pultusk northwards has brought the Germans to a point south of Ostrolenka. The latest German success brings them within 25 miles of north Warsaw, but the Polish capital has a second line of defense along the Bug river.

The stubborn hold of the Russians on the Lublin-Chelm railroad continues. The Austro-German troops, Russian advices say, are suffering under fierce counter attacks.

Except for the consolidation of the French success in the Vosges mountains, which resulted in the capture of 800 Germans, Paris reports only artillery and mine warfare along the western front.

That peparations have been made by Germans for a winter campaign is indicated by an official dispatch from Berlin which says that the war department already has on hand supplies of warm clothing.

### CUPID TAKING VACATION

Dan Cupid is taking his vacation and has gone far from the activities of Houston county, as will be seen by an examination of the marriage license book at the Probate Office. Just think of it, not a single license has been issued since Sunday!

### THREE GALLONS GONE

Three gallons of a well known brand of whiskey were destroyed at the county jail yesterday. The corks were taken out of the bottles and the liquor was poured out. This whiskey was seized by the Sheriff in a raid, and had never been claimed.

## ∴ SUMMARY OF WAR STATUS ∴

German armies in the east continues to make progress toward Warsaw. North of the Polish capital the Teutonic troops, according to official Berlin reports have crossed the Narew river and are advancing toward the River Bug and are running from Warsaw eastward. In this sector the Germans are twenty-five miles from the capital. The Germans are directing their efforts against the Russian defense near Piaseczno, a town twelve miles south of Warsaw and they already have taken two positions by storm. In South Poland the Germans are meeting with determined resistance from the Russian troops holding the Lublin-Chelm railroad, which is of great strategic value in connection with the northwest military operations.

That preparations have been made by Germans for a winter campaign is indicated by an official dispatch from Berlin in which it says the War Department already has on hand supplies of warm clothing.

A French torpedoboat destroyer is reported from Toulon to have destroyed the Austrian submarine and aeroplane depot on Lagosta Island, one of the Dalmatian group in the Adriatic sea.

Riva, an Austrian town on Lake Garda, has been the objective of an attack by Italian aviators. Two aeroplanes dropped eighteen bombs on the railroad with "excellent" results, according to the official announcement.

An observer at the Dardanelles describes a successful effort on the part of a British aeroplane to prevent a submarine from torpedoing a British troopship. The aviator dropped [illegible] so close to the submarine that it was compelled to flee.

Tuesday, July 27, 1915.

Tomorrow Dog Day the first.

After the disaster comes the investigation.

What is so rare as a correct weather forecast?

Can a sick woman be well dressed?

Have you begun recuperating from your vacation?

Oh Fashion, what sights do we see in thy name!

The Frank case is like stinkness long drawn out.

Cotton is cheap but not as cheap as the farmer feels who has nothing but it to sell.

The Summer is passing, but drinking fountains for the horses are not. They haven't arrived.

"The outside lobby." Wonder if the first letter of his name is Charles.

It's the spendthrift in boom times who is the burden in times of depression.

Some folks stay so thin that it looks like a waste of food every time they go to the table.

Let's ring out the old custom of not ringing the church bells and ring in the new custom of ringing them.

The Germans seems to have taken deliberate aim at being deliberately unfriendly to the United States.

It looks like officials will learn nothing from disasters. The investigation should precede the disaster instead of following it.

The Advertiser hasn't much room for any news but the great victories (?) the governor is winning over the legislature.

The legislature is being beat to several frazzles by the governor. If you don't believe it read the Montgomery Advertiser.

What's become of the old fashioned boy who was so mean that folks said he ought to have been hung when a potato vine would have hung him?

It would seem that the Germans [illegible] to be held to more [illegible] accountability" for [illegible] vessel [illegible]

## The Old-Fashioned Garden.

Commercial Appeal.

There is an atmosphere of romance to be found in an old-fashioned garden. It suggests past memories. The moss-grown surroundings lull and soothe tired souls of today.

The old-fashioned garden is a garden of peace. It brings us face to face with the days of chivalry. We can easily imagine what the days of our grandmothers must have been, when the rose was more fragrant, the colors more persuasive and flowers seemed to be the poetry of the Creator. There can be found in such a garden the hardy geranium, the phlox, the ever-blooming petunias. The feathery fronds of the crepe myrtle take the place of the early blooming lilac. Lavender gives out its aromatic fragrance. Roses nod in all directions. The unappreciated zinia seem boldly familiar, marigolds brighten the general color scheme with their crowns of gold. The old familiar stocks so dear to the generation ago, the holly hocks with their radiant colors, the four o'clocks, so beautiful and yet so poisonous; candy tuft and canterberry bells are all familiar friends.

Spiraea bushes, in the days of spring a mass of snowy white, have donned the midsummer sheen of green and offer a dark and restful background. Clusters of snap dragon and sweet william bring back memories of long ago. There were none of the radiant carnations to be found in the old-fashioned garden, but the spice of the garden pink is dear to all who have recollections of bygone days.

Of course, we find the sunflower growing there, bold and brilliant.

There are more favored flowers. The verbena, the coleus and poppies effectively vary the general tone of color. Argeratums and acacias with feathery foliage bring their flowers in the days of spring and comfort the eye with their rich green in the torrid days of summer.

The fragrant sweet alyssum and mignonette must not be forgotten, nor the bending stalks of salvia so rich and red.

Cannas of golden yellow and rich, warm red, stand like waving plumes, while hedges of althea stand far above the surrounding shrubs and foliage.

Many other familiar blossoms can be found, and moss-grown mounds complete this delightful picture, so reminiscent, so fragrant and so comforting. We linger and look and feel that these familiar flowers are god's thoughts of beauty offered on earth to gladden mortal eyes. What a desolate place the world would be without our old-fashioned gardens.

## Men as Trees Walking.

Brunswick (Ga.) News.

The man in the Scriptures who had been blind from his birth, "saw men as trees walking" when his sight was given him by a miracle.

Miss Tomsyna Carlyle, a Pasadena college student, also blind from birth, received her sight the other day by a modern miracle of science. After 25 years of total darkness, vision came to her from a two minute surgical operation, and when she turned to look at her mother for the first time, the mother's features were meaningless to her."

She already knew the form of her mother's face, as she knew other objects, from her sense of touch. "But" she says, "I know mother better now, for having seen her." She is "unable to 'identify,' such common things as flowers, dogs, cats, shrubs, chairs and tables. The light waves enter her eyes as they enter the eyes of others, and form images on the retina, but that delicate sensitive film of nerve-ends is untrained, and the brain has not learned yet to interpret the sensations it receives. Everything visible is jumbled together in a strange blur. The world that was so familiar to the blind girl is all confusion to the girl who sees. Some colors please her and others are repulsive. "Objects moving swiftly frighten me," she says, "and in crossing streets I close my eyes and then walk forward rejoicing in my safety."

She will learn, little by little, to transform her startling and chaotic visual impressions into definite, recognizable objects, each with its proper form and color and its proper position in space. Her experience is a reminder of the perpetual marvel of sight which the rest of us have taken, all our conscious lives, as a matter of course, ignoring the fact that all of us in babyhood had to learn to use our eyes just as Miss Carlyle is learning to use hers.

## Exploding a German Fake.

New York World.

Exports of explosives of all kinds from this country in the month of May amounted to only $5,500,000 more than in the same month of last year, when Europe was at peace. For the eleven months ending with May these exports were $24,000,000 larger than a year ago.

These figures become important when wheighed against the German charge that American ammunition to the allies is prolonging the war by preventing a quick German victory. They will interest those who remember the statement of an officer of the German General Staff to The World's correspondent that 100,000 German soldiers had already been killed by American ammunition and 200,000 wounded; or the statement of another high German officer that 50 per cent of the German losses are so caused, or the later inspired outgiving of an American now in Germany that 86 per cent of the German losses have been inflicted by American bullets and shells.

It is of American shells that the chief complaint is made, and these exports of explosives include bullets as well as shells. We will be liberal and assume that $5,500,000 worth of shells alone were exported in May to France and England.

The German General Heinrich Rohne has had published in Berlin some figures on the allied expenditure of shells along the western front. He says that "nearly 300,000 shells were fired north of Arras on June 17," and that "this was almost as much as the whole fire of the German artillery in 1870." He also says "the very smallest gun shoots a projectile costing at least $6."

At $10 per shell for an average, the allies shot off $3,000,000 in shells in one day at one spot along a 450-mile line. This is at the rate of $90,000,000 a month for a small part of the line, and America's exports of all kinds of ammunition per month at the time must have been less than $6,000,000 for the whole line!

These are American facts and German calculations, not German guesses. In this light, what becomes of the German invention of 50 per cent. of losses and 86 per cent. of losses caused by American bullets and shells? Whatever else these American explosives have done, they are shown in fact to have exploded with deadly effect under the 50 and 86 per cent. liars.

American ammunition undoubtedly has not figured at more than 5 per cent. of the allied expenditure, and as the allied production is enormously increasing, it will probably never exceed that small fraction. It is not and has not been prolonging the war or preventing German victory. Its effect in the casualty results are and must continue to be comparatively negligible. The whole story to the contrary has been "made in Germany" for a purpose that reflects no credit on the Government that has been its inspiration.

## "SEE AMERICA FIRST."

A remarkable little book has just been issued. A book that every man who owns a car ought to have tucked away in his inside coat pocket. It is called "See America First," and is published by the B. F. Goodrich Co. If you will drop a line to Akron sending a two-cent stamp or call at one of their branches, Goodrich will see that you get a copy —and at their expense.

There isn't a car owner but figures on taking a great motor tour some day. He knows he has the possibilities of unlimited mileage in his sturdy machine—he knows that the way they are building tires nowadays a thousand miles is getting almost as easy as a hundred a few years back.

But his time is limited—perhaps money expenditure is a factor—so—where shall he go? When he takes that summer vacation what trip will yield him the biggest returns in mileage invested?

Let him turn to "See America First" for the answer. This little book points out tour after tour and tells the picturesque, the beautiful, the attainable in all of them. There are "New Hampshire's mountains," "Yellowstone—Land of the Geyser," "Riding into Dixieland," "The Lure of the Great Northwest," and many others—all beautifully illustrated with real photographs, with little talks about roads and so on. Then there is a large map of the United States with an Goodrich Guide Posted Highways and all main routes of travel plainly marked.

Altogether it is a most complete, interesting and instructive booklet—chock full of live touring information.

ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use like cold cream to subdue irritation and clear the skin.

Any breaking out or irritation on the face, arms, legs and body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears.

Those troubled should obtain from any druggist an ounce of bold-sulphur, which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.

HOTELS, SUMMER RESORTS AND SCHOOLS

The Colonial
The Newest Hotel in White Springs, Fla.

Modern, up-to-date, 175 ft. of porch, running water in every room. Rates reasonable, $9.00 to $14.00 per week. Good dancing floor, player piano. Near Springs. Spend your vacation with us.

THE BEST is the CHEAPEST

How often you hear that said about shoes, or clothes, or food.

It's much more true when applied to drugs and drug store merchandise—on most of which far more vital things depend than mere good looks or pleasure.

Did you ever think of that? When health—perhaps life itself—is in question, the best is not only the cheapest, it's the SAFEST.

You always get THE BEST from us—and it's always the cheapest too, because it always gives the BEST POSSIBLE RESULTS.

And it costs you no more—usually less—than elsewhere.

## SAVES DAUGHTER

### Advice of Mother to [illegible] Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

*Write to:* Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," in plain wrapper. B.C. 120

## Stock Market Shaken By News of Sinking of American Ship

New York, July 26.—The stock market was shaken up severely today by the news of the torpedoing of the Lelanaw. In the early trading the group of issues known as war stocks, which have been the center of speculative activity, were active and strong.

Gains among such stocks as Bethlehem Steel, Baldwin Locomotive, Crucible Steel, Colorado Fuel, Republic Steel and Westinghouse Electric ran from one to four points.

On the announcement that the Lelanaw had been torpedoed, the market broke abruptly. Not only were early gains crossed off, but prices fell materially below Saturday's closing. Westinghouse quickly showed a net loss of 5 points, Crucible Steel and American Locomotive 4, American Can and Baldwin Locomotive 3½, Steel ½ and Bethlehem Steel 1.

There were declines of 1 to 2 points in the representative railroad shares. St. Paul established a new low mark at 77 3-4.

Speculation became quieter after the first wild rush to dispose of stocks and, although the movement was nervous, price moved upward. Recoveries ran from 1 to 2 points in customary leaders and from 4 to 8 points in shares like Bethlehem Steel, Can and Baldwin.

The Manhattan Life Insurance Co., of New York City, wants a few select real estate loans in Dothan and Houston county. For particulars see R. D. Crawford or R. C. Williams. ta27

**RUB-MY-TISM**

Jim Folkes of Smyrna, was here today on business.

G. W. Hicks, and son, of near Ashford, were here today on business.

Dave Hathorn, one of Houston county's best farmers, was here today.

Teoole's Montgomery bread, received fresh every day. Bush Grocery Co. Phones 28 and 582.

John Sanders and Ben Faulk were out on route 4 today.

# "PRIDE," ——
# ——that is not Vainglorious

PRIDE in *perfecting* the Product.

Pride in *Achievement* won, step by step, through frank and fair means only.

Pride in the maintenance of a high standard of Quality—in a reputation for Reliability—DEPENDABILITY—and "the Square Deal" at all times.

The B. F. Goodrich Co. has been making history in the Rubber Industry, for *more than 45 years.*

It has *always* been the Leader!

It has almost *never* had a "Boom," or the reaction that follows Boom.

It has been *Conservative* in all its moves—never Experimenting at its Customers' Expense, yet never lagging behind *first* place in the Procession.

It has been the Pioneer in nearly *all* great Improvements made in the Working of Rubber.

And, it has grown *steadily,* surely, as well as stupendously, until the *largest* Rubber Factory in the World today, is that of The B. F. Goodrich Co. at Akron, O.

The Operations of this Factory require, and utilize, more than 75 Acres of Floor Space, and The B. F. Goodrich Co. frequently employs more than 15,000 people.

• •

NO other Rubber Factory in the World buys so *much* Crude Rubber, manufacturing as it does more than 90,000,000 lbs. of Rubber Goods yearly.

It pays *one-sixth of all the Taxes in the City of Akron,* which City has *15 other* Rubber Concerns, and more than 100,000 Population.

Some of its "White Anchor" Fire Hose, made 'way back in 1884 (30 years ago), is still doing good service, *because* of the *Precision* Principle and *Quality* Ambition that lie behind *all* Goodrich Co. products.

Every day in the year, on average, the operations of The B. F. Goodrich Co. result in its receiving more than 30,000 pieces of Mail, and more than 350 Telegrams.

It manufactures 284 Classes of Rubber Goods.

Some of these Classes subdivide into large businesses.

Thus it makes 160 kinds of Rubber Hose, 11 kinds of Rubber Tubing, 8 kinds of Insulated and other Wire, etc.

Every day, on average, The B. F. Goodrich Company Factory manufactures:—

—60 Miles of Insulated Wire.
—14 Miles of Rubber Hose.
— 5 Miles of Rubber Belting.
—12,000 Battery Jars for Electric Cars, etc.
—Conveyor Belts that measure as much as five feet wide and weigh more than 3674 pounds each.
—A Hard Rubber Dept. that alone employs more than 500 men.

All this in addition to its other Departments and the 21 kinds of Rubber Tires it makes *exclusive* of the "*Goodrich Safety*" Tread Auto Tire.

• •

THIS *Volume* of Rubber Buying, Manufacturing and Selling, with the corresponding reduction of Overhead Expense when divided over so many classes, is what gives to the *Goodrich* Factory the *lowest Cost* for Tire Manufacturing of the highest Grade.

The Responsibility to so many lines of Dealers and Consumers, in so many lines of Trade, is what makes it so *zealous* in guarding the Quality and Value of each Product that bears the *Goodrich* name—so slow to launch new things *until* thoroughly tested—so keen to make Success *sure* and continuous, rather than dramatic and transient.

And of all these Goodrich Products, that which best expresses the *measure* of our capacity, our Experience and Good-faith is the *Goodrich Safety-Tread Tire.*

It does this through giving the *greatest Mileage* and Resilience in the field, at the *fairest* Cost, per *Mile,* to Users.

• •

WHEN you Test these *Goodrich Safety-Tread Tires,* and compare with others of considerably higher price, you will then understand our *Pride* in Goodrich Standards and Ideals.

—A pride which results in Goodrich Tires being made *better each year* than they have ever been, and improved with each month's output.

The Goodrich *Safety*-Tread Tire today gives *more Mileage* than our own (or any other) *plain-Tread* Tire, with only about 5% more Cost to us and about 5% more price to you than that of our Plain Tread.

This, in line with Goodrich Co. Policy, which is to base its charges only on its low Manufacturing Cost, [illegible] how much *more price could* be obtained for the *greater efficiency* [illegible] materials.

Pride which results in this, concerns YOUR Pocketbook.

*THE B. F. GOODRICH CO.*
*Akron, Ohio*

Made as *always,* —the *same* reliable Construction, the *same* dependable Service—without anything whatever taken out of *Quality,* no matter what reductions in List-Price are ever made.

**Only 5% Plus for this Best Non-Skid Tire**

Note following comparative prices. "A," "B," "C," and "D" represent four Widely-Sold Non-Skid Tires:

| Size | Goodrich Safety Tread | OTHER MAKES | | | |
|---|---|---|---|---|---|
| | | "A" | "B" | "C" | "D" |
| 30×3 | $9.45 | $10.55 | $10.95 | $16.35 | $18.10 |
| 30×3½ | 12.20 | 13.35 | 14.20 | 21.70 | 23.60 |
| 32×3½ | 14.00 | 15.45 | 19.30 | 22.85 | 25.70 |
| 34×4 | 20.35 | 22.30 | 23.60 | 31.15 | 33.85 |
| 36×4½ | 28.70 | 32.15 | 33.00 | 41.85 | 41.60 |
| 37×5 | 33.90 | 39.80 | 41.00 | 47.85 | 52.65 |

# TEMPERANCE NOTES

(Conducted by the National Woman's Christian Temperance Union.)

### COST OF JOHN BARLEYCORN.

The credit side of the account of a city with John Barleycorn is very widely advertised by the liquorites. They endeavor to make the public believe that there is no debit side and far too few communities take the trouble to investigate and discover what is paid out of their treasuries to offset the license money paid in by the saloons. At the instigation of Governor Brumbaugh of Pennsylvania, Philadelphia's account with the liquor traffic has been carefully figured up and given to the public. It shows that John Barleycorn costs the city each year more than $3,000,000; that more than one-half of the expense of the police department of the great city is made necessary by the liquor traffic; that the per cent of expense of other departments of the city government, due to alcohol is, suicides, 75 per cent; home for the indigent, 60 per cent; general hospital, 35 per cent; county prison, 80 per cent; district attorney's office, 80 per cent; clerk of the quarter sessions, 80 per cent; juvenile court, 50 per cent.

Such figures certainly reflect upon the common business sense of the man voters of *Philadelphia*, especially in view of the statement in the report, that "the sum of $3,000,000 is far in excess of the money paid into the treasury for liquor licenses."

A similar problem in civic economy should be presented to the voters of every city which tolerates the liquor traffic.

### A NATURAL HANDICAP.

The Life Extension institute is an organization which is fighting disease through publicity. Its membership includes some of the greatest living scientists and educators. These authorities have put forth many radical statements concerning alcohol. They declare that the present antagonistic attitude of several European monarchs towards this "deadening drug" is fully warranted by scientific *evidence. "Alcohol," they say,* "is a handicap for a nation at war. It is a handicap for an individual in the struggle for existence. This is not the judgment of scientists alone, nor of weaklings and faddists, but of the big-brained, strong-fibered men upon whom has fallen the tremendous burden of guiding great nations through the greatest crisis in history."

### EFFECT OF ALCOHOL.

Dr. T. Alexander McNicholl, surgeon in Red Cross hospital, investigated 55,000 school children for the New York Academy of Medicine. He found 58 per cent below the standard of intelligence, 17 per cent dullards, 25 per cent deficient, and 16 per cent nearly deficient. Fifty-three per cent of the defectives were the children of drinking parents. Only 10 per cent of the children of abstaining parents were dullards. The family history of 3,711 children were traced for three generations. Of the children of abstaining parents and grandparents 4 per cent were dullards, while of the children of abstaining parents and drinking grandparents 78 per cent were dullards.

### AN UNCOMPROMISING ENEMY.

"I am the sworn, eternal and uncompromising enemy of the liquor traffic," declared Dr. Billy Sunday, recently in Philadelphia. "Stand by me," he pleaded, "in my fight for your homes, your families, and your decency. The saloon is doomed; the antisaloon sentiment already holds the balance of power in the United States. In God's good time we are going to sing 'My Country 'Tis of Thee,' and there won't be a saloon in it. We might as well try to dam Niagara Falls with toothpicks as try to stem the great tide of temperance reform that is sweeping our country."

### WORTH WHILE.

"Under the operation of the present prohibition law wonders have been worked in North Carolina. The improvement can be seen in every city and hamlet, and many men who voted against the present law have since its operation become convinced that it has been more than worth while," says the Charlotte Times in speaking of the result of prohibition in North Carolina.

### ROOSEVELT'S OPINION.

Colonel Roosevelt says: "There is nothing more absurd than the belief that the closing of the saloon will cause workingmen to lose their jobs. There are few things more important to our social advancement than the loosening of the grip of the liquor interests upon the labor movement. The saloon always represents economic loss."

### ALCOHOL QUESTION FIRST.

"If the alcohol question were solved there would still remain other social questions to be solved, but it is also true that as things stand today no other question of social welfare can be taken up with any prospect of securing efficient results until the alcohol question is solved."—Judge [illegible] [illegible], Germany.

### A JUST DECISION.

All social clubs of Atlanta, Ga., have been prohibited from dispensing liquor in any form. Claims of exclusiveness or aristocracy will cause no distinction in Chief of Police Beaver's ultimatum. Rigid democracy will govern all enforcement measures; the rich will not be permitted violations for which the poorer people are held accountable.

This decision has been won by the persistent work of Messrs. Eagan and Jackson, the "Men and Religion" advertising men of Atlanta.

# ANNUAL MEETING OF AMERICAN PLOWMEN

### National Farmers' Union Renders Unselfish Service to Agriculture.

By Peter Radford.

The National Farmers' Union will hold its annual convention in Lincoln Nebraska, on September seventh, and will round out the eleventh year of its activities in the interest of the American plowman. When that convention is called to order every farmer in America should pause and bow his head in honor of the men gathered there to render a patriotic and unselfish service to agriculture. That organization, born in the cotton fields of Texas, has grown until geographically it covers almost the whole of the United States and economically it deals with every question in which the welfare of the men who bare their backs to the summer sun are involved. It has battled for a better marketing system, rural credits, cheap money, diversification, scientific production, agricultural legislation and has carried on its work of education and co-operation in season and out.

The Farmers' Educational and Co-operative Union of America brings the question of organization squarely before every farmer in this nation. Without organization the farmers can neither help themselves nor be helped by others and through organization and systematic effort all things are possible.

The farmers of the United States contribute more and get less from government than any other class of business. They have better securities and pay a higher rate of interest than any other line of industry. They market more products and have less to say in fixing the price than any other business and they get more political buncombe and less constructive legislation than any other class of people. The farmers can only acquire such influence in business, in government and in economics as will enable them to share equitably the fruits of their labor through organization and every farmer on American soil who desires to help himself and his fellow plowmen should rally around the Union.

# POLITICAL GOSSIPS

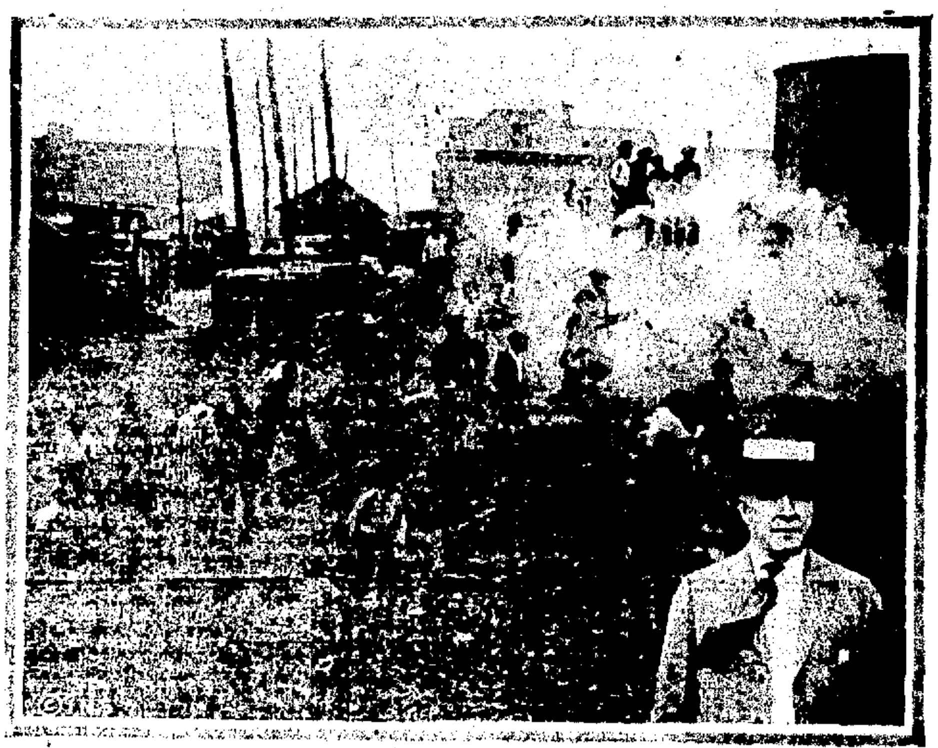
When one class of people has anything to say, it has become largely the custom to make a political issue out of it instead of a friendly discussion, to print it in a law book instead of a newspaper and to argue it before a jury instead of to settle it in the higher courts of Common Sense. As a result, political agitators, political lawyers, political preachers and masculine women are powerful in politics and dissension, selfishness, intolerance and hysterics run rampant in public affairs, for when the low, damp, murky atmosphere of misunderstanding envelops public thought it breeds political reptiles, vermin, bugs and lice which the pure air of truth and the sunshine of understanding will choke to death.

We have too many self-appointed interpreters of industry who are incapable of grasping the fundamental principles of business and who at best can only translate gossip and add color to sensational stories. No business can stand upon error and might rules—right or wrong. No industry can thrive upon misunderstanding, for public opinion is more powerful than a King's sword.

When prejudice, suspicion and class hatred prevail, power gravitates into the hands of the weak, for demagogues thrive upon dissension and *statesmen sicken upon strife.*

The remedy lies in eliminating the middleman—the political gossip—and this result can be accomplished by the managers of business sitting around the table of industry and talking it over with the people. Interchange of information between industries and the people is as necessary to success in business as interchange in commodities, for the people can only rule when the public understands. Away with political interpreters who summon evil spirits from their prison cells and loose them to prey upon the welfare of the people in the name of "My Country."

# Bayonne Strikers Shot Down When They Make Attack On Oil Works



BAYONNE STRIKE SCENE. INSERT— SHERIFF KINKAID.

This picture shows one of the rioting scenes at Bayonne, N. J., where more than 500 strikers attacked the plant of the Tidewater Oil company, with clubs, bricks, stones and revolvers. In the fight with guards two strikers were killed outright, and three mortally wounded. The insert shows Sheriff Eugene Kinkead, who is trying to restore order among the strikers. The militia has been called out.

### BURLESON BARS CYCLES TO R. F. D. CARRIERS

Washington, July 26.—Use of bicycles or motorcycles in the rural delivery service is prohibited by an order issued today by Postmaster General Burleson, effective January 1, 1916. In announcing his order, Mr. Burleson holds that vehicles of these types do not have the carrying capacity needed for the parcel post service, and do not afford necessary protection for the mails in bad weather. The order will affect about 8,000 carriers who now use the bicycle or motorcycles to cover their route.

### AEROPLANE FORCES SUBMARINE TO FLEE

Paris, July 26—The way a German submarine heading for a loaded British transport was put to flight by an allied aeroplane is described by the Seddul-Bahr *correspondent of The Matin.*

An aviator saw the underwater boat preparing to launch a torpedo and gave the alarm. He also dropped bombs at the submersible. None took effect, but they forced the submarine to plunge deeper. Soon afterwards, however, the periscope reappeared and the aviator dropped two more bombs. The submarine then fled.

### PURITY LEADER GIVES 11 WAYS TO REFORM WORLD.

DR. ELIZABETH H. MUNICE.

**Dr. Elizabeth Hamiltoon Munice**

San Francisco, July 26.—Eleven steps that must be taken to regenerate the world were revealed by Dr. Elizabeth Hamilton Munice, author and lecturer of Brooklyn, N. Y., in an address before the ninth International Purity Congress in the Municipal Auditorium here.

"Equal suffrage is the chief hope of the world," she said. "The sturdy oak has become decayed at the core; the clinging vine must now become the sturdy oak." What suffrage for women will bring is enunciated in the following eleven reforms:

1. Recognition of men's spiritual as well as physical and mental age.
2. Personal purity for man and woman.
3. Preservation of the integrity of the home.
4. Home teaching.
5. Compulsory sex teaching in the public schools.
5. Compulsory reporting of diseases of children by parents.
7. Compulsory certificates of health before marriage.
8. Sterilization of criminals.
9. Establishment of vocational hospitals.
10. Suppression of traffic in liquor, tobacco and drugs.
11. Annihilation of the social evil.

# How Gold Dust actually *works* for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually *works.* It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime *everywhere* and it cleans and brightens *everything.*

Gold Dust does all this—does this actual *work*—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

***But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.***

◆ ◆ ◆ ◆

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitarily clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can.

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.

Gold Dust is as inexpensive as it is indispensable.

Happenings In

## Ashford, Alabama & Surrounding Territory

**Dothan Eagle Bureau—Fellows & Forresters' Store**

**Edited by Geo. W. Collins**

The Arachne Club met at the home of Mrs. Lula Bell McKemie yesterday at 4 p m.

The occasion was a most delightful one, being filled with quite a round of varied amusements usual on similar meetings. Mrs. McKemie is quite an accomplished hostess, and as such, the rare qualities of her lovable nature are peculiarly brought to bear. In this, the education of head, heart and hand, with her shine forth, and stamps her as a most agreeable companion and a genuine jewel in a home.

After two hours of innocent amusement all those in attendance were escorted to the Jordan Drug Company, where refreshments were served and thus end ended, a most pleasant afternoon with the club Those attending were Misses Mattie Rigell, Nola Manley, Audrie Bruner, Winnie Sellers, Allie McIntyre, Willie Mae Rollins, Eunice Williams, and Bessie Stinson. The next meeting will be held at the home of Mrs. W. H. Rigell tomorrow afternoon.

---

Miss Mary Evelyn Strong returned home yesterday from an extended visit to friends and relatives in Blakely and Colquitt, Ga.

---

Messrs. W. P. Burkett and T [illegible] together with their fam [illegible] an automobile trip last [illegible] Columbia, Cedar [illegible] Donaldsonville, [illegible] Talla [illegible] o'clock in the morning and returned at seven in the afternoon

---

Mr W S Cook passed through here yesterday en route to Dothan

---

Hon John A May was here yesterday

---

Deputy Sheriff North of Gordon, spent the afternoon here Monday.

---

Mrs S. K. Sellers is spending this week with her parents at Malone, Fla In the meantime Mr Sellers is visiting the home of his father three times a day

---

We want to know of all the local happenings in and around Ashford and want to insist that if you know anything along this line that you will turn it in

---

Mr R M Jacobs went to Dothan on business yesterday

---

The Holiness meeting here is still in progress and they have many accessions as a reward for their efforts Ashford is naturally composed of some of the best people we have ever seen, the only trouble with them is they forget and won t stay good long enough at the time No trouble to get a fellow to join the church in Ashford, the great trouble is to keep them joined.

---

Preparations for the season are now nearing completion at the Farmers Union Warehouse company, one of the best ginning plants in this section, and it is claimed that the gins will start running next week

---

An electric lighting system is being installed at the Bush Bros new building, which when completed and put in operation will make it a thing of beauty and a joy forever

---

There is to be a public entertainment at the school building next Thursday afternoon Circulars announcing the same will be out on time This entertainment will be given for a good cause We will not here state the object of the entertainment as it is a get-up of Prof Cassidy s, and to all those that will be on hand early he has promised to inform as to the real object so be sure to go and go early

---

Ashford Lodge No 303, Knights of Pythias, met at the hall last night and duly installed the officers for the ensuing year

---

Rev Lampkin is to begin a series of meetings at Rocky Creek church today He is to be assisted by a brother Bridges

### SHE LEAPED TO DEATH FROM BURNING LAUNCH

West Palm Beach, Fla July 26 Miss Evelyn Rice said to be a musician of Boston lost her life at Lake Worth last night when she jumped overboard from a burning launch according to reports reaching here today Mrs John Watson Doe sister of Miss Rice jumped into the water to save her and she in turn was rescued by Everett P Maulhost Mr Maulhost was badly burned while trying to extinguish the fire on the boat. The cause of the fire is not known here.

## TEMPERANCE NOTES

(Conducted by the National Woman s Christian Temperance Union )

### THE FULL DINNER PAIL.

Everybody s Magazine, in its new department 'Keep Posted," narrates and comments in a recent number as follows

'Wine woman and song has gone up against dollars and cents in Lansing Mich and the result is one of the most notable so far achieved in America The most prominent leader of the drys is not an evangelist, nor any other sort of custodian of the soul He is simply a commercial person —R H Scott

"In the year 1910, in the factory of which Mr Scott is manager, in a period of ten successive weeks, the employees lost a total of 321 working days and the wages of those days—because of not being able to recover promptly from pay nights spent in saloons

"In the dry versus wet campaign in 1910 in Lansing Mr Scott fought for morals and economics Nevertheless the campaign did not please all of Lansing s business men They thought that a dry town would lose business to wet towns near by So two years later, Lansing went wet again

This gave everybody a wonderful chance to compare a dry Lansing with a wet Lansing commercially

'First as for the cost of running the government it was soon found that a wet Lansing had to spend a good deal of money supporting its wet citizens One of many proofs was this the cost of feeding the prisoners in the county jail during the two years while Lansing was dry had been $5 600 while during the two ensuing years of wetness the cost of feeding them (at the same rate per person) was $11,'00 Quite a difference for a town of 40 000

"Second as for business itself, scores of merchants were converted to the proposition that the competition of saloons in nearby wet towns would not be half so injurious to them as the competition of saloons on Lansing's own streets Their experiences may be summarized into the statement of a butcher who remarked merely that when the town was dry he could collect his back bills and when it was wet he couldn t

In the last dry versus wet campaign in Lansing the merchants did not rally to the support of the flowing bowl at all They turned to the overflowing pay envelope and the paid up accounts The issue discussed was prosperity and the majority for going to it sober was 1 200

'The efficiency of the factory is at least 10 per cent higher dry than wet, according to Mr Scott

'And a similar result is shown in the cost figures furnished to Everybody s Magazine by Mr C E Bement, general manager of another company. In a dry Lansing—and for no reason except dryness and greater sobriety and energy—the cost of making engines by this concern has gone down 70 cents per horse power "

### PERTINENT QUESTIONS.

(Asked by the Temperance Society of the Methodist Episcopal Church )

Let us look these questions squarely in the eye

Does the liquor traffic pay the United States?

Does it pay financially?
Does it pay commercially?
Does it pay industrially?
Does it pay physically?
Does it pay mentally?
Does it pay morally?

What single good thing can be said for the trade in liquors or the habit of drinking alcohol?

Nothing?

Then why not kill the traffic without further delay?

If we cannot kill it let us hang our heads in bitter humiliation, for it is greater than we

If we can kill it then in God's name let us do it!

### FOOD FOR TAXPAYER

Census bureau statistics show that for the year 1913 the liquor revenue received by state county and municipal governments amounted to only $79,516 989 or a per capita of 82 cents This includes all incorporated places of 2 500 people and over This liquor revenue constituted only 4 3 per cent of the total state county and municipal revenues $1 845 901 129 To put it simply the states counties and cities got a total revenue of $19 per capita and a liquor revenue of only $0 82

Inasmuch as the per capita drink bill of the American people is in excess of $21 it is apparent that we spend about $1 for every three and one-half cents returned to the states, counties and cities by the liquor traffic

### HOW TO EDUCATE.

In the temperance education campaign now being vigorously carried on in all parts of the country a specialized system is advisable Dr. Wells Andrews, in Chicago Daily News, puts this suggestion into words that are well worth passing on

Tell the lumber men of Michigan he says, how many thousands of drinking farmers will shingle their homes and barns or build new ones as soon as they quit their meanness ' Tell the shoe manufacturer of Massachusetts what it means to take all the bare feet of drunkards' children off the ground Tell the iron men of Pennsylvania that new stoves will be needed in 100 000 homes when the saloon keeper ceases to get the money, and tell the miners they will have work all winter through getting coal enough to put into those stoves Tell the wool growers of Ohio that everybody in this country is going to be wrapped in woolen and sleep under blankets when the blizzards blow, and the men no longer heat up with liquid fire' in order to exterminate their families with atmospheric cold Tell the cattle raisers of the West and stockyards men in Chicago that there is going to be beef on thousands of tables, where now there are a few cold potatoes Tell the grocer he can sell for cash and say good by to bad debts when the dimes no longer go into the saloon till Tell the farmers there is going to be an unheard of demand for flour and meal, butter, cheese and eggs as soon as beer drinkers cease fostering that industry and begin filling out the hollow cheeks of wives and children.

### ALCOHOL, SHOT AND SHELL.

The Reformer, a paper of Western Australia, writes of the effects of intoxicating drinks in the expeditionary force of that state as follows

A little time ago 20,000 troops were medically certified as sound in wind and limb Then alcohol began to put in its fine work, and in a short time 2 000 of them, either for behavior or sickness, were dismissed Their places were soon filled but neither the citizens nor the soldiers had learned their lesson and so whisky or beer was still regarded as the bond of good fellowship and the test of hospitality Then came along pneumonia, that dread daughter of alcoholism It was pneumonia in the camp pneumonia at Albany pneumonia on the sea, and pneumonia beneath the shadow of the pyramids Some tardily recovered, others were laid beneath the turf or the wave before ever they saw the flash of Turkish sword or heard the burst of German bomb

Alcoholism and pneumonia indeed can scarcely be separated, and the foremost physicians of England now are saying that they look upon the previous alcoholic condition of a patient as the arbiter of his life when attacked by pneumonia This first blood in our war was drawn, not by the bayonets of the enemy but by the folly of ourselves The foolish hospitality of the people and the drinking dens of the state joined hands in destroying our defenders

### A NEW FAITH

Although Maj Dan Morgan Smith of Chicago was never personally addicted to the use of strong drink, yet he was for several years the able general counsel of the Model License league He is now a zealous advocate of temperance and thus writes 'Arguments that once seemed so plausible have failed me, for the foundation of my faith and the corner stone of my arguments was the failure of regulation and the success of prohibition My faith is gone and my corner stone is displaced, my structure has fallen, and it remains for me to help build another, founded on a new faith, with a corner stone as enduring as the truth, and that faith shall be called Temperance, and the corner stone shall be Annihilation I shall never make another speech in behalf of the Model License league I am through with the wet side My intelligence insists upon it, my conscience demands it'

### FOR THE SAKE OF OUR BOYS.

A mother having expressed her regret at the lukewarmness of a certain preacher on the prohibition question received the reply, "But, my dear woman, it is not necessary to urge it It is right and is sure to come It may be twenty or, perhaps ten years, but what matters a few years, more or less?' 'What matters a few years?' replied the mother with deep feeling "If your boy or my boy are to be among those who will be ruined in the saloons in these ten or twenty years it would seem a matter of infinite importance how soon the liquor traffic was exterminated'

### LIKE MINDED.

The Worth Brothers Steel Mills company, the Lukens Iron and Steel company of Coatsville, Pa, and the Florence Iron company of Florence, N J, have prohibited the delivery of beer, whisky or any other intoxicating liquors to the homes of their employees and all agents of breweries are prohibited from soliciting upon [illegible]

## Store Advertising Does Not Lose, But Gains Interest Because of "War Conditions"

A disturbance of the normal course of business life, such as has resulted from the great war, gives peculiar interest and importance to the advertising of commodities.

For it is through this advertising that the eventual buyer and user of these commodities must first learn how the war has affected their making and their sale.

The woman who likes certain kinds of dress fabrics watches the store "ads" with peculiar interest because she wants to know whether such fabrics have become higher-priced, or non-importable. The same interest attaches to almost all commodities. How they are affected—whether the prices have soared or declined—whether domestic manufacturers are meeting the need for things no longer obtainable from abroad—such information comes to the people through the store advertisements. and gives to them an unusual interest.

War conditions, therefore, while they mean vexations for the merchant, also mean **OPPORTUNITY FOR HIM.**

He need not **LOSE**—he may actually **GAIN**—trade because of them, by making his store more and more pronouncedly a public service store, bridging for the patron the difficulties of securing the things wanted at normal prices.

**Newspaper advertising never before held for the live merchant such opportunity as now.**

# OUR PUBLIC FORUM

## IV.—F. A. Vanderlip

### On The Business of Banking

The farmers of this nation to come into their own must study business. We must, as a class, understand the fundamental principles that underlie every industry, its functions to society and its relation to agriculture, for there can be no intelligent co-operation without understanding. Mr. F. A. Vanderlip, president of the National City Bank of New York, when asked, "What is a bank?" said in part:

"The first and most familiar function of a bank is that of gathering up the idle money of a community, small sums and large, and then forming a pool or reservoir upon which responsible persons may draw as they have temporary use for money. It is evident that this makes large sums in the aggregate available for the employment of labor and the development of the community. But much more is accomplished than the use of the money actually deposited in the banks, for by the use of drafts, checks and bank notes the efficiency of money is multiplied several times over. A very large business, for example one of the great beef packers, may use very little actual money; on one side of its bank account will be entered the checks and drafts it is daily receiving from everywhere in payment for meats, while on the other side will be entered the checks it draws in payment for cattle, etc., its only use of money being for small payments to labor and otherwise.

If there were but one bank in a community and everybody paid all bills by drawing checks on that bank, and everyone receiving a check immediately deposited it in the bank, the amount of money in the bank evidently would not change at all and the entire business of the community would be settled on the books of the bank. And the situation is but slightly changed when there are several banks, for they daily exchange among themselves all the checks they receive on each other, which practically offset themselves, although the small balances are paid in cash. This is called 'clearing' and in every large city there is a 'Clearing House' where representatives of the banks meet daily to settle their accounts with each other.

A bank is constantly receiving from its customers, particularly those that are shipping products to other localities, drafts and checks drawn on banks in other cities, which it usually sends for deposit to a few correspondent banks in the central cities with which it maintains permanent accounts. In this way these scattered credits are consolidated and the bank draws upon those accounts in supplying customers with the means of making payments away from home. As each local community sells and buys about the same amount abroad in the course of a year, these payments largely offset each other. It is evident that the banks are very intimately related to the trade and industry of a country. The banker is a dealer in credit much more than a dealer in money, and of course his own credit must be above question. He exchanges his credit for the credits required by the customers, and lends credit for their accommodation, but he must conduct the business with such judgment that he can always meet his own obligations with cash on demand. This is the essential thing about bank credit, that it shall always be the same as cash."

# INSPIRATION OF THE COUNTY FAIR

By Peter Radford.

When you enter the agricultural department of the county fair, you feel your soul uplifted and your life takes on a new power—that is the inspiration of the soil. You are overpowered by the grandeur and magnificence of the scene—that is the spirit of the harvest. You can hear the voice of nature calling you back to the soil—that is opportunity knocking at your door. It is a good chance to spend a quiet hour in contact with the purity and perfection of nature and to sweeten your life with its fragrance, elevate your ideals with its beauty and expand your imagination with its power.

These products as food are fit for the gods, and as an article of commerce they ought to bring tip-top prices on any market in the world.

The products of the soil are teachers and preachers as well. Their beauty gives human life its first entertainment, their perfection stirs the genius in artists; their purity furnishes models for growth of character and their marvelous achievements excite our curiosity and we inquire into the wonderful process of nature.

Before leaving the parlor of agriculture where nature is parading in her most graceful attire and science is climbing the giddy heights of perfection, let us pause and take a retrospective view. How many of you know that after these wonderful products are raised, they can seldom be marketed at a profit? Take the blushing Elberta, for example—they were fed to the hogs by the carload last year. The onion—the nation's favorite vegetable—every year rots by the acre in the Southwest for want of a market and as a result hundreds of farmers have lost their homes. Cotton—nature's capitalist—often goes begging on the market at less than cost of production.

It is great to wander through the exhibits while the band is playing "Dixie" and boast of the marvelous fertility of the soil and pride ourselves on our ability to master science, but it is also well to remember that there is a market side to agriculture that does not reflect its hardships in its exhibits at a county fair.

# UNIVERSAL PEACE

This nation is now in the midst of a controversy as to how best to promote universal peace. That question we will leave for diplomats to discuss, but peace within nations is no less important than peace between nations and it is heavily laden with prosperity for every citizen within our commonwealth.

Many leading politicians and platforms have declared war upon business and no cabinet crisis ever resulted. Many men have stood in high places and hurled "gas bombs" at industry; thrust bayonets [illegible] agriculture with indifference. Party leaders have many times broken diplomatic relations with industry; sent political aviators spying through the affairs of business, and political submarines have sent torpedoes crushing into the destiny of commerce. During the past quarter of a century we have fought many a duel with progress, permitted many politicians to carry on a guerrilla warfare against civilization and point a pistol at the heart of honest enterprise.

No man should be permitted to cry out for universal peace until his record has been searched for explosives, for no vessel armed or laden with munitions of war should be given a clearance to sail for the port of Universal Peace. Let us by all means have peace, but peace, like charity, should begin at home.

# GRASPING AT THE SHADOW

No man—especially if he is married—would deny woman any right she demands. Take the earth and give us peace, but why does woman long for the ballot?

When all is said and done, is not the selection of the butcher more important to the home than the election of a mayor; is not the employment of the dairyman a far more important event in the life of the children than the appointment of a postmaster; is not the selection of books for the family library more important than voting bonds for jail and court house? Why does woman lay aside the important things in life? Why leave the substance and grasp at the shadow?

Be it said to the credit of womanhood that it is not, as a rule, the woman who rocks the cradle that wants to cast the ballot; it is not the mother who teaches her children to say "Now I lay me down to sleep" that harangues the populace; it is not the daughter who hopes to reign as queen over a happy home that longs for the uniform of the suffragette. It is, as a rule, the woman who despises her home, neglects her children and scorns motherhood that leads parades and smashes windows.

## WHOSE BOYS?

Recent investigations show that two-thirds of all the drunkards contract the drinking habit before they are twenty-one years old, nearly one-third before they are sixteen, and about seven per cent before they are twelve. The liquor dealers know this, and for business reasons they must "create appetite" among schoolboys. One family out of every five must furnish a recruit for the army of drunkards or the "trade" must go under, and one wonders if the men who vote for saloons are willing to furnish their boys to help support them?

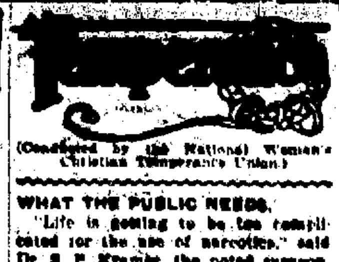
## HELPS THE UNDERTAKER.

"If any man here," shouted the temperance speaker, "can name an honest business that has been helped by the saloon, I will spend the rest of my life working for the liquor people."

A man in the audience arose. "I consider my business an honest one," he said, "and it has undoubtedly been helped by the saloon."

"What is your business?" yelled the orator.

"I, sir," responded the man, "am an undertaker."



(Conducted by the National Woman's Christian Temperance Union.)

## WHAT THE PUBLIC NEEDS.

"Life is getting to be too complicated for the use of narcotics," said Dr. S. P. Kramer, the noted surgeon, in a recent address at the Ricketts Research Laboratory, Cincinnati. "The time was when the farmer could drive to town and get tanked up and his friends would put him in the buggy and the sober horse would carry him home. But you can not do that now with automobiles. We know that most of the automobile accidents are after dinners where alcohol has been served, and that not always in excess."

After describing the effects of alcohol as similar to those of chloroform or ether, except for the fact that it works more slowly, he considered its effect upon efficiency in various fields of endeavor, and showed charts proving the lowered working power of compositors, bookkeepers and soldiers after they have taken liquor.

"But a friend said to me," remarked Dr. Kramer, continuing the same line of argument, "'Doctor, you must know that Mr. Blank, the jury lawyer, is more eloquent in his cups, and that the celebrated actor was more impressive when drinking.' I asked this man if he would want his chauffeur, his locomotive engineer, his surgeon, to drink. He said he would not. Now the orator and the actor are in vocal pursuits. Alcohol makes them more passionate. But the judge on the bench knows that the lawyer is less capable of keen analysis when in his cups, and the trained dramatic critic will tell you that the drinking actor is not coming up to what he should. These men are like the court jesters. The fact is that the higher centers are off the job. The governor is not acting and the engine runs wild. That is all.

"No one nowadays thinks drunkenness is well. What the public needs is instruction about the destructive effect of moderate indulgence."

## EMPTY JAILS.

The following testimony to the advantages of prohibition appeared in one of the newspapers of Sussex county, Delaware:

"The county jail at Georgetown is without a prisoner, and Sheriff Jacob West is idle. The turnkey is on his vacation, chickens are roosting in the cells and the jail yard will probably be planted in early corn unless another applicant appears. The lone prisoner, Elwood Armstrong, who was afraid to stay by himself, was paroled for two years after having confessed to stealing five dozen eggs."

Further testimony as to the workings of prohibition comes from Kalamazoo, Mich. The Gazette of that city on April 5 contains a paragraph headed, "Kalamazoo Without Crime for 48 Hours—Crimeless Period of City's History Follows Knockout of John Barleycorn," and the item reads:

"'Rooms for rent. Apply within.' This is the text of a sign which will likely be tacked on the front door of central police station in another week if the period of quiet continues. Not a cell door in the station house has been opened during the last 48 hours. The 'bull pen' is as barren and quiet as an abandoned country church. There has not been a single drunk arrested since Sunday afternoon. Crime in general appears to be at a standstill."

## BOYS AND BREWERIES.

A man was trying to convince another that because of the vested interests involved the people had no right to close the breweries. His friend answered thus: "I have three boys. By the time I graduate them from college they will have cost me about ten thousand dollars apiece. Every interest of the brewery and everything that the brewery stands for is diametrically opposed to and threatens the investment that I have made in my boys. No doubt the brewer has more than thirty thousand invested in his plant, but I am going to safeguard my own interests first. I shall vote dry within ten minutes after the polls open if I can get my ballot by that time."

## JOHN BARLEYCORN SENTENCED.

In pronouncing sentence on over one hundred men, including the mayor of Terre Haute, Ind., for conspiracy in election frauds, Judge Anderson of the United States district court passed sentence as well on John Barleycorn. He said: "My notion is that the saloon will have to go. I believe that the time will come when the people will rise up and smash the saloon, at least as we have it now. The evidence in this case showed that the saloons were the center of nearly all the corruption in the election at Terre Haute."

## PRINTERS AND WHISKY.

"More printers are harmed by whisky than by all the insanitary shops in the world," President Wright of the Typographical union No. 16 of Chicago, is reported to have recently said. "Every week dozens of jobless printers come to our relief committee [illegible]
